George Oikawa was unanimously chosen for the position of recording secretary, while Goro Suzuki was elected as one of the auditors. The meeting heard Union first vice-president Buck Suzuki, also a member of the Local, report on the dangerous situation facing the fishing industry in two fields, pollution of salmon streams with sewage and by spraying planned to kill off the spruce budworm. Margaret Matsumura and Mary Miki were elected to the executive board of the Steveston Shoreworkers Local of the UFAWU at their meeting on March 4.

UBC President on 10-Day Visit to Japan as Guest

TOKYO.—University of B.C. president Norman MacKenzie arrived in Tokyo for a 10-day visit as guest of the Japanese foreign ministry. He is accompanied by his wife. The foreign ministry said his visit is "significant as part of an effort to exchange Japanese and Canadian culture."

Triplets Born to Los Angeles Nisei Couple

LOS ANGELES.—Triplet sons were born to Mr. and Mrs. James Kajiwara of Los Angeles on March 10. Mark, Douglas, and Bruce, all weighing in at under four pounds each, are the first additions to the family, and all concerned are in good condition. Dr. Sakaye Shigekawa was the attending physician. Now the "big headache" is to find larger living quarters. Their current abode is a one-bedroom duplex, smiled the young mother. (Ed's Note: To our knowledge, there have been no JC triplets born in Canada.)

Roads to Keep Japanese Names Despite Protests

LIHUE, Kauai.—Two subdivision roads named after Japanese families here will keep their names despite objections from a Caucasian homeowner in the area. Kauai supervisors had approved titling the streets Oyama Road and Konishi Road. The homeowner said he had nothing against the Japanese, but thought the roads should be designated by Hawaiian names.

A HORTICULTURAL VIEW:

Japan, Land of Scenic Grandeur

By JOHN F. CLARK

Through the courtesy of the Jean Berke Travel Service, New York, it was possible to spend three weeks in this land of Enchantment, and I found Japan a land of scenery, parks, gardens, temples and tradition. A country about two-thirds the size of California, into which is crowded almost 90 million people.

Japan's mystic mythology goes back 2,600 years so it becomes a land of temples and shrines. The basic religion is Buddhism. For many years it was a closed country and little known to the west. But in 1853 the ships of Commodore Perry appeared in Tokyo Bay and sparked a revolution that opened Japan to the world.

Tokyo is the capital and ranks third in size of world cities, and will likely take first place within five years. It possesses 76 universities and 69 colleges. Here one finds libraries, parks, tea rooms, picture theatres, electricity and modern conveniences. Coming into Tokyo at night is to look down on a magnificent scene of sparkling jewels in all colors that reminds one of fairyland.

Language is [illegible] difficulty in travelling about Japan, and this also applies to money. The rate is about 355 yen to the dollar and can always be exchanged for dollars when leaving the country. Purchases are easy and there is a tremendous variety from which to select gifts [illegible].

The people display flawless [illegible]

The atmosphere of rural Japan [illegible] picture. About 7[illegible] per cent of the [illegible] grandeur is simply magnificent and a paradise for the [illegible] with mists or bathed in glorious sunshine.

> John F. Clark, secretary of the Ontario Horticultural Association, journeyed through Japan, Hong Kong and Thailand last September with a touring group of horticulturists from Canada and U.S. He was entrusted with the care and transport of a goodwill Canadian sugar maple tree presented to the children of Japan from the Canadian people, which was planted in a colorful ceremony in Hibiya Park, Tokyo. Many of the local JCs met Mr. Clark when he was guest speaker at the Toronto Japanese Garden Club banquet and lecture night on Feb. 17. This colorful description of Japan was presented by Mr. Clark before the Ontario Horticultural convention held March 7-8.

MAY NOW CALL JAPANESE FIANCEES

Another Step in the Immigration Problem

OTTAWA.—Fiancees of Japanese Canadian citizens may now be called from Japan under the same provisions extended to Chinese Canadians, it was revealed this week by the Minister of Citizenship and Immigration.

In a letter to Stan Hiraki, co-chairman of the Immigration Committee of the Toronto-Ontario JCCA, Hon. J. W. Pickersgill announced that the Department's experimental scheme of admitting fiancees of Chinese Canadians to Canada upon submission of a $1,000 bond, will immediately be made applicable to future spouses of Japanese Canadians. In the event that marriage does not take place within a period of one month, the $1,000 ensures return passage to Japan for the called party.

This experiment has been undergoing a try-out for the past year, during which a number of Chinese brides have been able to gain admission to this country. The minister has indicated that this provision will be extended for another year, to both Japanese and Chinese, and depending on the continued success of this scheme, it will probably be made permanent in the next revision of the immigration regulations.

Other Considerations

Other items mentioned in Mr. Pickersgill's reply to the brief submitted by the Toronto-Ontario JCCA Immigration Committee earlier this month were;

1) possible removal of the word "unmarried" with regard to children under 21 years, at the next revision;

2) recommendation to lower the age limit of parents, upon further research (at present only fathers over 65 and mothers over 60 are admitted);

3) further consideration in the near future regarding the question of grandchildren (under 21 years) of Asiatic Canadians;

4) special consideration for children over 21 under unusual circumstances.

Canvassing Support

Meanwhile, the Immigration Committee of the Toronto-Ontario JCCA consisting of Stan Hiraki, Mits Sumiya, Reg Mori and T. Umezuki, in conjunction with the Chinese Canadian Association, have attended meetings of the International Institute of Metropolitan Toronto and the Imperial Order of the Daughters of the Empire to explain the purposes and contents of the previously reported brief and request their support in the matter.

HIROMICHI O'HARA WAS IN ST. PATRICK'S DAY PARADE IN N.Y.

In this year's St. Patrick's Day parade in New York, a Japanese student, Hiromichi O'Hara, described generally as being of the Tokyo O'Haras, was greeted with cheers along the route of the parade. When he passed the stand Mayor Briscoe, Governor Harriman, Mayor Wagner and other dignitaries rose in unison and bowed their applause.

CLUB FI BASKETBALL TOURNEY NEXT SATURDAY

HAMILTON.—Club Fi's annual basketball tourney draws near as only one week remains before the big day: Saturday, March 30.

The tourney will be held in Cathedral Girls' school gym, completed last year, at 467 Main East, next to the new Loblaw's Groceteria.

There is no doubt that each entry will face stiff competition. The Chinese A.C. have wins over [illegible] Sir Wilfrid Laurier High and the [illegible] Chinese teams in Montreal.

For Toronto, it's reported that Yuki Kameoka, a verteran of the former Toronto-Hamilton League and now a star for Yamadas will be recruited to assist capable Dick Tanaka and Kayo Shigetomi.

London-Chatham stars Art Suzuki, a University of Western Ontario Colt player, supported by a hustling group of Chatham boys.

Host Club Fi will present an All-Star team chosen from the league. Among the top players are Tim Oikawa, Shin Fukumoto, Frank Shimoda, and Dan Kuwabara.

Toronto's Club Ami girls' team, of unknown strength, will take on the challenge of the Club Fi girls' team, who boast veterans as well as rookies capable of filling the vacancies. The girls' game will precede the consolation game.

With these attractions, we hope the fans will turn out in large numbers to support their favorites. There is ample parking area behind the school.

The Community Dance, at St. Michael's hall, 213 James N., will be from 8:30 to midnight. The music, on records, will have Miller, Shaw and Goodman for the older group as well as popular and rock & roll for the younger set. Admission is only one dollar, so everyone—yes, YOU, too,—come out and have an evening of fun! See you!!

ANGELS ENTER FINALS AFTER DEFEATING DUKES

HAMILTON.—March 15: The Angels won both games of the two-game total-point semifinals with scores of 50-46 and 47-29 over the Dukes.

Angels 50-Dukes 46

This close contest saw both teams give championship performances in their bids to gain the finals. At the beginning neither team was able to score until rookie Bart Uchida swished an easy jump shot, after which the teams matched baskets but the Angels got an extra one and led 12-10 at the quarter. The Dukes retaliated in the next quarter and pulled ahead as Morino, Yamaguchi and Uchida shouldered offensive duties while only Shimoda and Murase were able to score and keep the Angels within striking distance. Dukes led 25-22 at the half.

The final half proved to be team efforts in scoring as every player scored at least one field goal, but no Duke player was able to contain nor match the scoring of Frank Shimoda as he led the Angels ahead 39-38 at the third quarter. The Angels didn't look back after that and went on to a 50-46 victory.

High scorers—Angels: F. Shimoda 23, M. Murase 12, J. Kawamoto 5; Dukes: H. Morino 12, P. Yamaguchi 10, A. Yamamoto 9, B. Uchida 8.

Angels 47-Dukes 29

Despite dissension among Duke ranks, the game got under way and the Angels spurted ahead. The Dukes started to rally their forces but were unable to catch up though they narrowed the margin to 19-16 at half-time.

Lack of substitutes wore the Dukes out and a pressing, close-checking Angel team harrassed [illegible] errors which resulted [illegible] breaks, tiring the Dukes [illegible] the Angel lead. After gaining a big lead, the [illegible] Angels left the floor to the [illegible] but quicker team-mates [illegible] managed to match baskets [illegible] their taller opponents, and [illegible] finally 47-29.

The Angels won the round by a 97-75 score.

N.B.: Keep Saturday, March 30 an open date to come to Hamilton for the big doings.

THL Nisei Flyers Defeat Pigott Motors Advance into 2nd Round

THL Nisei Flyers advanced into the second round of the Intermediate playoffs with their win last Monday over Pigott Motors in a 5-0 shutout. The Pigott goalie's luck which held good for the first two games ran out as the Flyers smothered him with pucks at Richmond Hill.

They now go on to play the winner of the Islanders-Remodel Construction contest, with the first game slated for Wednesday, March 27 at Scarboro Arena, 9:45; the second at Lakeshore Arena, March 28 at 9:30; and if a third game is necessary, at Ravina Gardens on Sunday, 3 p.m. According to coach Bert Nasu the team has a good chance of getting into the finals and even the championship of the THL.

The whole team played very well, dominating throughout, with Pete Cook as the big man on ice. He scored the first and fourth goals, while Dave Takashima, dependable defenseman marked up the second. Left Sasaki scored third, and smallest member George Wakayama shoved the puck through after circling the Pigott goal for the fifth marker. Flyers led 3-0 at the end of the first half. Goalie Ken Wiggins kept many pucks out of the Nisei net to maintain the shutout.

The referees had their hands full calling penalties, and the box was occupied almost throughout the game.

Blackbelt Teams to Compete in Montreal Tourney

Preliminary eliminations are to be held during the afternoon at the Seidokan so that semifinals and finals can constitute the evening. The individual championship will be for the Gosho Trophy, while team competition for non-black belt will be for the Togo Challenge Trophy.

For the first time this year there will be team competition for the black belt class [illegible] teams from Ontario and [illegible] from Montreal Seidokan [illegible] for the Kan[illegible] Challenge Trophy. Admission is $1.00, 50 cents for children.

40 ATTEND GOLF MEET

Over 40 golfers were in attendance at the general meeting of the Toronto Japanese Golf Club held last Sunday at Gray-Brydson Golfing Exchange on Yonge St.

原子力委員會委員を
病氣なおれば研究に沒頭

【東京時事通信】原子力委員會委員、京都大學教授湯川秀樹博士は病氣靜養を理由に同委員を辭任することを決意し、湯川氏の親友である湯淺電池社長湯淺佑一氏が辭表をもつて上京、岸首相に手渡した。湯川博士は昨年春も『病氣のため學門研究と原子力委員の兩方を勤めることはできない』として委員辭任の意向をもらしたが、慰留されていたものである。岸首相は『湯川博士がやめたいという氣持はよくわかる、日本のためにもその方がよいのではないか、しかし私の一存で處理するわけにもいかない問題だから關係者と協議して善處する』と答えて辭表を受けとらなかつた。湯川氏の辭意はきわめて固く、一切の慰留に應じない態度を示しているので辭任は確實とみられている。湯川氏の辭任理由は就任の條件として（一）自分の研究時間をさかない（二）專門外のことにわずらわされない（三）一年限りにするの條件であつたところがこの三條件とも守られていないとしている。病氣がなおり元氣になれば研究に沒頭したいとのこと

四月三日裁判、出延命じらる

既報の通り、トロントの日刊紙テレグラム紙が去る日曜日に日曜版を發行したことに關し、州檢事總長の命令で警官隊がテレグラム紙ほか二新聞社およびシービーシーとトロント放送會社（シーエフアールビー）を襲い、日曜法に違反している證據集めをしたが、州檢事總長は來る四月三日、これらの違反者を裁判所に呼び出して裁判することになつている。テレグラム紙は自社だけが日曜法違反にかかる筈はなく、スター、グローヴ・アンド・メールおよび前記ラジオおよびテレヴィ放送局もそうだと指摘したのでイモヅル的な起訴となつたものである。

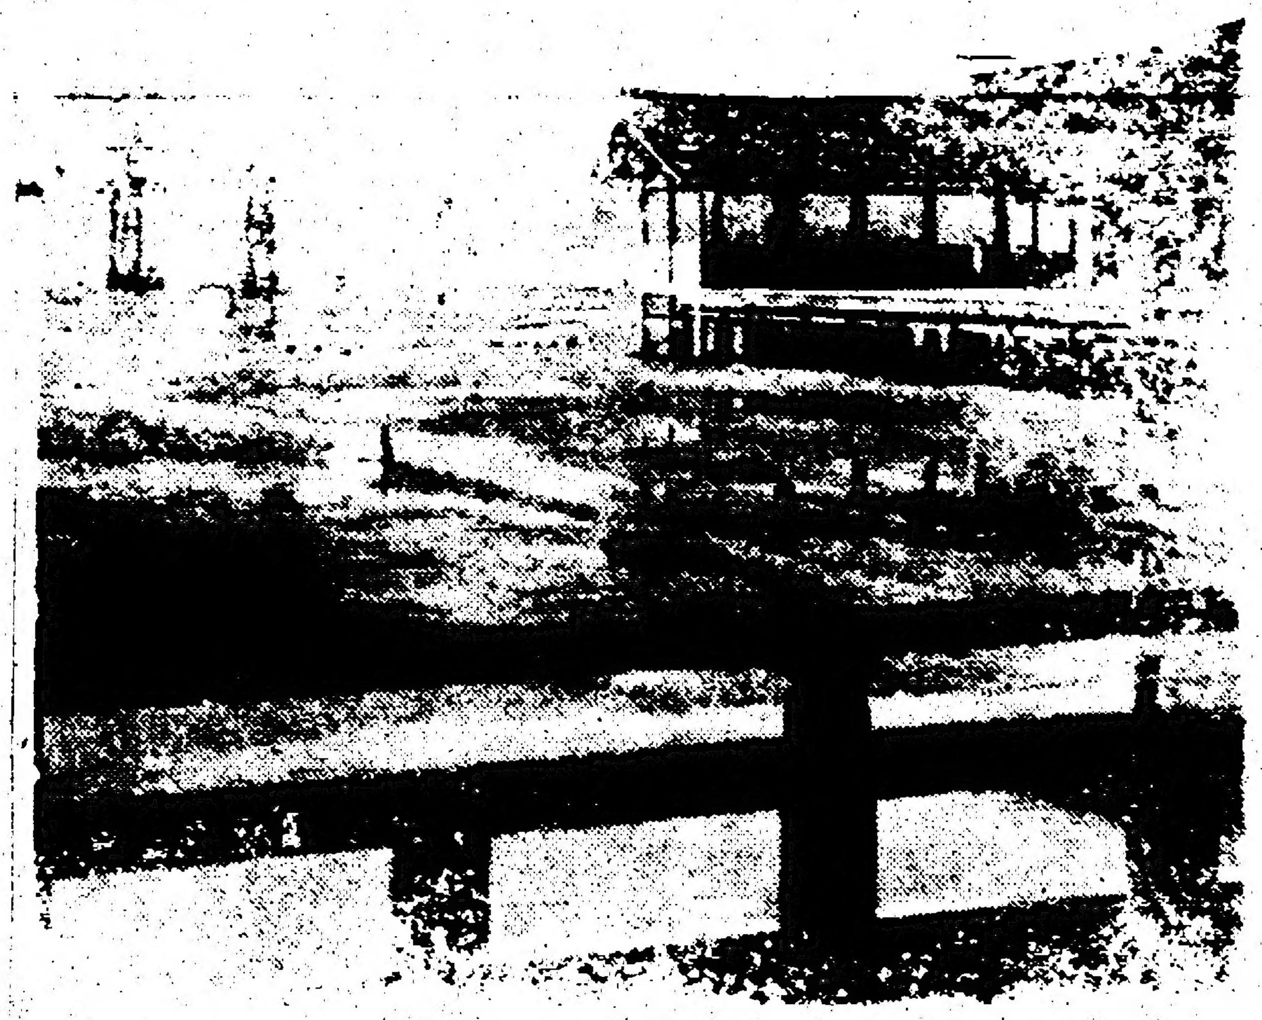
Japan, Land of Scenic Grandeur

(C[illegible])



. . . a view of Miyajima Shrine, near Hiroshima

[illegible] flora includes cherry and [illegible] blossoms, tea, persimmons, [illegible] figs and flowers such as lotus, wistaria, azalea, camellia, and chrysanthemums. In trees the beautiful cyptomeria, oak, maple, birch and pine is seen throughout the land, making Japan a place of intense interest to the botanist and horticulturist.

The bird most often seen was a very attractive small white heron, which showed up nicely against the background of green.

In some areas erosion could be seen, but reforestation was also evident. On the slopes of the hills appeared many terraced gardens and acres of rice giving evidence of the importance of good earth. The acreage per farmer is small. In most cases not exceeding two acres, but every inch of it is at work. The women work as hard as the men and may be seen in all lines of endeavor.

The main crop is rice and 1956 produced a bumper crop. The country both imports and exports rice, and of course it is a main item of diet. The planting, care and harvesting is all done by hand. The rice fields appear as lustrous acres of velvet carpet. One can hardly look out and not see workers bending to their task, which indicates the tremendous industry of this remarkable people.

The fields, gardens and small vegetable plots are simply divided by paths; fences would mean lost space. Such plots are well ordered and absolutely weedless.

Most of the salt is recovered from the sea, is of good flavor, so we visited Takamatsu and observed another branch of Japanese industry.

Towns and villages are packed with interest, the narrow streets often hand-swept and watered, so little dust was noticed. The people are clean and this lessens the chances of epidemic and contagion.

The principle food is rice, although it is possible to secure good western food in all cities and hotels. The main native dishes to try are **sukiyaki**, a sort of beef stew cooked at the table; tempura, which is fresh prawns deep-fried; and **chawanmushi**, which is chicken, pork and beef stewed with egg custard in a bowl. **Kabayaki**, or broiled eel, is considered a delicacy.

Most of the principle cities were bombed during the war, including **Osaka** which contains a most interesting shopping and amusement centre with colorful bazaars and an ancient castle, the walls of which are formed of giant pieces of granite. The gardens surrounding the castle contain many interesting shrubs, [illegible] and tiny ponds to delight the horticulturist. It is in Osaka that you find the original Bunraku puppet shows.

Hiroshima, the [illegible] city, is a marvel of reconstruction and shows the energy and the [illegible] of the Japanese people. Few traces are to be seen of the tragic destruction by the atom bomb. **The Island of Miyajima, the "Island of the Shrine", near Hiroshima**, is considered one of the scenic spots in Japan. The wonderful shrine is built on supports running into the sea, and at high tide the shrine seems to be afloat. A visit to Japan is not complete if this area is overlooked.

Nara is considered the cradle of Japanese art and culture with wonderful examples of early Japanese architecture. Here is seen the Todaiji Temple with its Hall of the Great Buddha, the largest wooden structure in the world, housing the great Buddha which is over 35 feet high. The Horyuji Temple, built in 607 A.D. contains many art treasures over a thousand years old. The Nara Park is simply lovely where deer roam at will in dozens, even in the town itself, stopping the visitor for food. The vermillion corridors of the Kasuga Shrine, founded in 768 A.D. invites the tourist to pause and admire.

Kyoto is known as the classic city of Japan and contains 899 temples, and is a great shopping centre. Here we found the greatest bell in the country, cast in 1633 and standing 18 feet high, nine feet across, and weighing 74 tons. It is interesting to note that 77 of Japan's 124 emperors lived and ruled from Kyoto.

The famous rock garden in the Ryoanji Temple is located here and artists have tried to solve the mystery of the perfection with which its rocks are placed in the field of white sand (which represents water). The old gardens of this city are deemed the best in the country. Here are found ancient trees, lanterns and a pagoda that has stood almost a thousand years.

Kamakura is about 30 miles from Tokyo and was the seat of the Japanese government from 1192 until 1333 A.D. The towering "Buddha of Infinite Light" is the most striking thing in the area, being 700 years old and completed in 1252, of bronze castings. It is 42 feet high and weighs 92 tons. The face is serene and is seven and a half feet long, and the thumbs are nearly three feet in circumference. Other [illegible] images, [illegible] the visitor.

It is estimated that [illegible] men worked on the buildings during the 15 months from Janu[illegible] 1635 to March 1636 [illegible]. The resplendent Yomei-mon Gate is the entrance to the main shrine and causes the visitor to stop and marvel at beauty of design and excellence of workmanship.

Nikko is also a National Park, 90 miles from Tokyo and covers 206,000 mountainous acres of genuine beauty. Here we found birch, maple, pine, cherry and cryptomeria trees, a placid lake and the beautiful Kegon Waterfalls in a plunge of 330 feet. A cable car carries the visitor to the 2,000 feet to Lake Chuzenji which is four thousand feet above sea level. Never visit this wonderland without a camera.

Let our last stop be the most striking peak in all of mountainous Japan, the lovely **Mount Fujiyama** and Lake Hakone. The gorgeous cone rises into the air some 12,395 feet, the peak being snow-capped in summer and the slopes pure white in winter. The extinct crater at the summit is circular and about 1,968 feet in diameter. There were eruptions in 967, 1082 and 1707. Its [illegible] scenic grandeur [illegible] beauty are known throughout the world. Every devout Japanese wishes to climb the slopes of sublime Fujiyama at least once in his lifetime. The ascent is not hazardous, [illegible] routes lead the [illegible] summit, and there [illegible] food and bedding [illegible] wish to rest by the way.
